 CAI Machine & Engineering House, 11,100 sq. ft. – CAI Shipping/Receiving, 11,250 sq. ft.  
 CAI Surplus Warehouse, 19,600 sq. ft.

**Repair Station**

CAI has over 20 years of combined experience in interior overhaul, redesign and repair.

CAI can remove old, damaged, worn out interior, refurbish to “like new” condition and re-install.

CAI takes pride in what we do, we deliver with high class quality, and we are eager for the opportunity to be your gold class supplier.

**Machine House**

Build to Print machine house. Send us your drawing, we can machine, anodize and assemble all in house. We are equipped to complete low to high quantities/batches.

“One stop shopping” mentality. Acquire the tools to complete the job from A to Z. Saving time, money and resources. In turn those savings are shared with our customers.

**Finishing & Anodizing Line**

CAI is excited to announce the recent opening of our Finishing Line. Currently running all commercial parts – NadCap Certification in Process with an expected completion of 1<sup>st</sup> quarter 2016.

**Wire Center**

CAI wire shop with laser marking of wire harnesses and wire kits. Tri-Star M-100L Spectrum Tech. CAPRIS-50
